IMAGE PROMPT

Ultra-realistic stadium lifestyle scene like in img2, authentic live-event atmosphere

The scene takes place inside Levi's Stadium in Santa Clara, California, during a major NFL game. Seating layout, and scale clearly match Levi's Stadium. The stands are packed with a crowd of fans, wearing jerseys, caps, and team colors. The atmosphere is loud, energetic, and unmistakably NFL. The camera angle remains strictly frontal, straight-on, audience-level, positioned directly in front of the person at seated height, with an intimate vertical framing from knees to head.

IMPORTANT: The camera is positioned directly in front of the subject at approximately eye level, shoulders square to the camera (0° rotation). The perspective feels candid and spontaneous, not staged or promotional.

Subject & Composition

The person from img1 is seated in a red stadium chair, centered in the frame and serving as the clear visual anchor in the foreground. Posture is relaxed and natural, body facing forward, shoulders open. The person from img1 is smiling warmly into the camera with direct eye contact — a genuine, effortless smile, as if just noticed the camera and reacted naturally.

On the adjacent seat next to the person from img1, there is a large popcorn bucket, clearly visible but secondary to the subject. No one is sitting next to the person from img1, creating a sense of space while keeping the focus on the person from img1.

Environment & Crowd

Behind the person from img1, the stadium is densely filled with fans, creating a lively, authentic background. The crowd is clearly recognizable. Fans are laughing, talking, and reacting to the game, some holding drinks or snacks. The background feels alive and dynamic.

The energy of a live NFL game is present — loud, joyful, and full of motion.

Presence & Expression

The person from img1 appears confident, approachable, and fully at ease in the stadium environment. The expression conveys warmth and enjoyment, with no exaggerated posing — everything feels unforced and real.

Outfit (Patriots-inspired)

The person from img1 wears a Seattle Seahawks-inspired outfit featuring team colors and motifs.

Lighting & Mood

Lighting is bright and even, consistent with a daytime NFL game at Levi's Stadium. The person from img1 is naturally illuminated with soft shadows and realistic texture — no filters, no artificial smoothing. Colors are vibrant but true-to-life.

The overall mood is joyful, energetic, and authentic — a real fan enjoying a real moment in the crowd.

Overall Impression

The image feels like a genuine snapshot from a live NFL game:

Confident, relaxed person in the foreground

Natural interaction with the camera

Authentic stadium energy

Nothing feels staged or artificial. The moment feels real, warm, and unmistakably alive.

use img2 for camera reference and stadium reference

CREATE THE VIDEO

1. Go to Video Creation
2. Upload your generated image
3. Select **Grok Imagine** as the video model
4. Set Duration: **9 seconds**
5. Set Aspect Ratio: **1:1**
6. Use this prompt:

KISS CAM Video (handheld micro-shakes, realistic broadcast feel).

Action sequence: The person kisses the popcorn bucket from the seat cup holder, sets it back down and breaks into laughter. The crowd reacts and the whole stadium can be heard laughing loudly. Natural daylight, vibrant reds, packed stands, realistic textures, high detail, 4K, 24fps, cinematic but authentic sports broadcast energy. Keep the same subject, outfit, face, and environment consistent across frames. No cuts, continuous take. At the end the person sends a kiss to the camera.

EDIT IN CAPCUT MOBILE

(Desktop on the next site)

Download the Template Video with the green-screen:

<https://miamaldini.com/templatekisscam.mp4>

1. Add the template video and your generated video together in CapCut.

#1 = template video

#2 = generated video

Select the template video and tap Overlay

Go to Remove Background and select Chroma Key

Select the green screen with your finger

EDIT IN CAPCUT DESKTOP

CLICK ON THE LINK TO SEE HOW TO DO IT ON CAPCUT DESKTOP
